After making a reputation for offering well-built and low-maintenance units for healthcare and institutional facilities nationwide, Rane has come home in the best way. Our line of residential tubs has changed the standard of the walk-in bathtub. Rane's side entry baths are built to last with sleek and beautiful designs that look seamless in any layout.

Trust Rane for your safe bathing needs.

## *Safety*

Rane's tubs are durable and comfortable. Easy entry, convenient options, and a comprehensive warranty give you peace of mind for years of trouble-free use.

## *Quality*

Our high-quality fixtures are as beautiful as they are lasting.

*Deluxe modular control panel (shown inset) available as an accessibility option.*

\*Roman deck mount shown with flange—please check model availability

## *Luxury*

Rane's Luxe-Air system is the relaxing & hygienic approach to spa bathing. Equipped with spring loaded backflow preventative jets and warm airflow, you can enjoy daily hydrotherapy massages to naturally soothe aches and pains.
