### TECHNICAL SPECIFICATIONS - RN5

**Description:** Model RN5 built in, side access tub designed to fit into a 30"X60" standard tub opening.

**Construction:** The tub shell is a seamless 3/16" thick reinforced polyester composite laminate with an ISO/NPG sanitary gel coat surface. Critical areas are reinforced using 1/4" thick end grain balsa and additional layers of reinforced laminate.

**Drain and Overflow Assembly:** Drain and overflow are centered in the back wall and may be ordered factory installed.

### TECHNICAL SPECIFICATIONS - RN9

**Description:** Model RN9 is a freestanding tub designed to be placed against a wall or a corner.

**Construction:** The tub shell is a seamless 3/16" thick reinforced polyester composite laminate with an ISO/NPG sanitary gel coat surface. Critical areas are reinforced using 1/4" thick end grain balsa and additional layers of reinforced laminate. The aluminum frame is an integrated part of the structure and adds support to the seat and floor areas.

**Leveling Legs:** The sturdy stainless steel leveling legs will adjust up to 2" each.

**Drain and Overflow Assembly:** Drain and overflow are centered in the back wall and may be ordered factory installed.

**Manufacturing and Testing:** This unit was designed and is manufactured in Sparta, Tennessee USA.

Each unit is passed through a quality control review and is completely water tested prior to being shipped.

**Warranty:** All Rane tubs come with a standard 5-year limited warranty on external finishes and fiberglass shell, a 3-year warranty on specified parts, and a lifetime warranty on the door seal.
